End Line Finish, #3	Penalty Area	Crossing

Set Up: There are 9-12 players set up in the attacking third, starting at the cones.

Procedure: Player A begins the drill with horizontal dribbling run towards Player B. Player B makes a horizontal run towards Player A, and then combines with him on a takeover or heel pass combination. Player B passes out wide to Player C, as Player A runs to goal. Player C crosses the ball to Player A for a first time finish. The players should rotate to all three lines during the drill, and the starting positions should be switched over to the right side of the field after 5-10 minutes.

Teaching Topics:

1 Visual cues.
2 Timing the runs.
3 Decision making.

Progressions:

1 Add the fakes of the 2 v 1 combinations.

Coaching Points:

1 A horizontal run across the field is the visual cue for the takeover or heel pass.
2 Player A must let the play on the sideline develop before starting his run to goal.
3 Read the play and determine whether the last pass will be a cross or a setback.
